

## **Dependable and Distributed Systems**

### **Examination Frequently Asked Questions (FAQ)**

To ensure that everyone can benefit from the questions that are asked about the examination, this document will be maintained as a record of frequently asked question. Feel free to ask questions during lectures or via email. When someone raises a question or point that may benefit everyone, it will include it in the list below.

#### **How long in the examination?**

The duration of the examination is two hours.

#### **What is the structure of the examination?**

The examination paper will contain three questions. You should answer all questions.

#### **What can be expected in the assessment?**

In terms of the focus of questions, you will be required to know the breadth and depth of the content covered in lectures. On top of that, you will be expected to apply some problem solving in order to answer some question, particularly the more challenging part of the examination that require you to combine knowledge and problem solving.

#### **What resources should I use to revise?**

The essential material is covered in the lecture slides, topics videos and additional resources linked on the module webpage. In planning your revision, it would be sensible to use the Examination Guidance and this Examination FAQ to focus on important areas.

#### **How can I have more questions answered here?**

Feel free to ask questions in lectures or email the module organiser.
